1 - What are the strengths and weaknesses of Julian Gerez (discussion section leader, lab section leader, grader) as an instructor, and how might Julian Gerez's teaching be improved?

Response Rate	3/13 (23.08%)
<ul style="list-style-type: none"> • Julian has such a deep understanding of the material covered and puts so much work into teaching practical applications of methods covered in lecture. He chooses examples that allow students to learn many skills in one, writes very clear and well documented code, and walks through it logically and approachably. • Provides very thorough and thoughtful feedback and is easy to approach. • Julian and Arnaud are great. They alternate sections and always put a lot of effort into teaching (I really like the section material and the RMDs are super helpful- I've downloaded and saved most of them for potential use later). They were also around for answering clarifying questions. 	

2 - What is the overall teaching effectiveness of Julian Gerez?
